

# Deep Clearing

Updated April 23, 2013

**Before proceeding check with your pendulum on a scale of 0 to 100% with 100% being clear to see how clear you are. If you are less than 75% I suggest you request an [Exorcism of Possession](#) before proceeding. If you are more than 75% clear then proceed to clear yourself by spinning the pendulum anticlockwise and state the following invocation aloud with a strong voice:**

In my Holy Name I declare I am light and only light. I undertake this action throughout all levels of consciousness and throughout all time, space and dimensions both known and unknown. I undertake this Deep Pendulum Clearing as a benevolent act and I allow all non-beneficial energies, attachments, intrusions, alterations from any and all sources whether from beings or from any or all other life forms that have entered my aura, my consciousness, sub-conscious or unconscious mind or physical brain to be now removed translated, transformed, transmuted and transfigured throughout all levels and layers of reality into more harmonious frequencies of Light. With the assistance of Prime Creator I hereby remove and release myself from any and or all other sources that are not aligned 100% with pure divine light including but not limited to the following:

system, galaxy, and universe and any and all alternative universes, planets, worlds, in this or any other time, space or dimensions or in this or any other lifetime or multidimensional reality that would inhibit the full activation of my DNA, the development of my crystal gene matrix structure and my light body.

59. I give my cells permission to release any and all non-beneficial energies held in their genetic code or matrixes that may have been derived from any space, time, or dimension either know or unknown

And in conclusion and in my Holy Name with the assistance of Archangel Michael I now revoke and deny permission for any and all non-beneficial intrusions into my energy fields from any and all sources and I remove all stated any other not yet stated non-beneficial thought forms and energies in, around or through my being and I do so throughout all time space and dimensional matrices both known or unknown including deleting all original causes, core beliefs, past and present life traumas and effects. I remove all infection and I bring all healing crisis associated with these actions to a successful conclusion such that I am pain free and any damage is now fully repaired. I declare it so. So it is. It is done. Thank you.

**Spinning the pendulum clockwise I state aloud:** With the assistance of Prime Creator and Archangel Michael I translate, transmute, transform, and transfigure heal and repair all that I have stated and replace it with Prime Creator's love, light and tone. I call one soul heal here and now and I retrieve, heal and repair any and all aspect of my fragmented soul. I am now reborn anew in this moment. I ask for assistance to create Elohim shields of protection, cosmic SWAT team and masters of light. I invoke the Law of One. I declare I am not a victim. I now create a new reality and I invoke this reality into this now moment with each every breath that I take. With this breath and each subsequent breath I take full control of my life with each right thoughts, words, deed and action. I encapsulate all non beneficial energies, entities or beings and send them back to the light. I hereby close, seal, and permanently lock closed all inter-dimensional gates and doorways or any other intrusions into my energy field, multidimensional realities, chakras and soul blueprint or my present incarnation or any other blueprint that is not 100% of the pure light. Locate all missing soul parts from this life and all past lives from the beginning of time, cleanse, heal and repair them with the Light, and integrate them back into my soul. I clamp the cords to any soul parts that cannot at this time be fully cleansed, repaired, brought back and integrated at this time. I clean, heal, repair and shield my soul with the violet light of St. Germain (100% of the divine light) and my brain is clear, rebooted, re-patterned and balanced. My DNA and all levels of my energetic being are in harmony and balance with my original blue print. With each Deep Clearing I undertake I spiritually cleanse myself and my protection level is increased such that my auric field repels all psychic attacks or repossession attempts. I fill the void with sixth dimensional or higher energies I now grant love, forgiveness and freedom to any and all including myself if I participated in inhibiting my or others DNA activation or obstructed my own or others soul paths, and in addition I now call in the higher dimensional energies to translate, transmute, transform and transfigure, anchor, repair, purify, assemble and activate my DNA and genetic structure to the full limit of what my body, energy structures, soul matrices and over souls can hold in each moment, and I grant myself the full memory of all lifetimes and the remembrance of the purpose and the work for which I have come to planet earth and in my Holy Name I declare it so. So be it. It is done. Thank you.

**Now check on a scale of 0 to 100% with 100% being clear to see how clear you are. If you are not 100% then clear yourself again. Sometimes it takes 3 times to fully clear. The above wording can be placed in a plastic sleeve. On the reverse side or on another piece of paper list all persons, things or places that you would like to clear each time you clear yourself. You may place this sheet under your paper radionics chart and broadcast it 365/24/7. A copy of the radionics chart and explanation is available by request or can be found in the Dowsing Manual that can be ordered and downloaded [here](#). Ask Archangel Michael, Saint Germain and your Light Team to please assist you in taking care of this clearing request and then express gratitude that it has been done. To set the clearing intent in your energy field it is best initially to do a Deep Clearing at least once a day for three weeks then use the short form (in red below) for 3 weeks and then you can use the word "clear" and it will have the same clearing action as doing the full Deep Clearing long or the short form below.**

# Deep Clearing

Deep Clearing Short Form:

To clear anything in your field use the following wording while spinning the pendulum counterclockwise to clear non beneficial energies: I remove from my energy field all original causes, core beliefs and effects related to the following non beneficial energies (fill in the blank with what you want to clear) and I do so throughout all time space and dimensional matrices both known or unknown. I declare it is so. It is done. So be it. Thank you. Let the pendulum stop spinning and come to rest which is neutral. Now fill the void you have created with positive energy by spinning the pendulum clockwise and state, I now translate, transmute, transform, transfigure, release and repair all that I have removed from my field and I now fill this void with 6th dimensional energies or higher of love, light and tone (fill in the blank with what you additionally want to fill the void with and end with) I declare it is so. It is done. So be it. Thank you.

Now I suggest you establish a trigger point on your body. For example, when I touch my finger to my third eye I undertake and complete a deep clearing

**Quantum K** – In addition I suggest using the Quantum K to assist us to return to our original blueprints [http://www.quantumk.co.uk/quantumk\\_video.htm](http://www.quantumk.co.uk/quantumk_video.htm). I also suggest using the accompanying manual.

**The Panel** – If you are a light worker and are suffering from some kind of physical problem that you have not been able to get to the bottom of by using this deep clearing, then The Panel may be able to help <http://www.angelicmessenger.com>

The wording of this deep clearing is combined from many sources including Richard Coutts, a Master Dowser. I thank Archangel Michael, St. Germain and all those seen and unseen forces of light that work with us to clear all space time and all other dimensions know or unknown of all be – lie – fs that separate us from the realization that we are all one in Spirit.

[i] Words that are self-sabotaging are stored in specific areas in the right side of the brain called “the Wernicke’s area.” The key to removing these beliefs is that they are stored in the brain as though someone said them: “You won’t remember.” The brain tries to make sense of a command and translates it, for example, as “I won’t remember.” This command then interferes with the person. Other examples of such commands are, “you’ll never change.” You’re not good enough.” You’ll go to Hell.” You’re stupid.” You’ll never make it.” You can get rid of these with kinesiology using repatterning as your body will know the exact command in order to remove it.
